

Statement Analysis for the Informed Interview

May 25, 2016

Reynoldsburg PD

TARGET AUDIENCE: Patrol officers and investigators as well as their supervisors.

Presenter:

Chief Michael Harnishfeger, CLEE, Ada PD

For years officers have collected Witness, Victim and Suspect Statements as a matter of routine and often fail to recognize the importance of what the writer is really conveying or purposely omitting. Through the Statement Analysis process, officers and investigators can gain insight that will prove invaluable in the interview/interrogation phase of the investigation.

By analyzing the deliberate words people use, paying attention to the balance of the statement, the strength of their insinuations and a number of other critical factors, the Statement Analysis process will guide our investigators through a deliberate course of questioning. Statement Analysis will change the way our officers and investigators process criminal investigations and will unquestionably lead to a higher clearance and solve rate.

This one day course will focus on many different statements with a goal of determining truthful vs. deceptive clues for the investigator. We will also listen to a number of verbal conversations allowing the participant to hear indicators of deception to further strengthen the learning process. Many practical exercises will provide the participants with opportunities to practice the process with an ultimate “bringing it all together” exercise.
