

# ASSESSOR AND PEER UPDATE – OACP-- JULY 26, 2016

I wanted to share with you the most recent compliance stats from OCJS:

- Number of Approved Agency Applications: 159 out of 956
- Number of Compliance Docs Submitted: 93
- Number of Agencies “In Process”: 19\*
- Number of Provisional Certificates: 47
- Number of Final Compliant Certificates: 26
- Number of Approved Peer-to-Peer/Assessors: 49
- Number of IACP Apps Received: 20
- Grant Applications Received: 46
- CALEA Accredited: 10

\* “In Process” means an agency submitted compliance documents for review but has not been approved because required documentation is missing. Communication between the review and agency is on-going.

The submission activity has slowed, however, we expect to see a “new rush” prior to the March 2018 publication of agencies in compliance/noncompliance. **If you are working as a Peer, now is an excellent time to encourage the agency to submit their paperwork.** OCJS is very accommodating in working with agencies to achieve certification.

## The Statistics for OACP Assessors and Peers are as follows:

- Total assignments: 91
- Total assignments closed: 62 (68%)
- Assessor assignments: 39
- Assessor assignments closed: 30 (77%) average days to close 25.4
- P2P assignments: 50
- P2P assignments closed: 32 (62%) with average days to close 40.1

You are all doing a great job—especially with the time-line on assessments. Thanks for your contribution towards the success of the Ohio Collaborative.
