

Assessor and Peer Update – April 13, 2016

I wanted to update you on a few items.

Currently, there are over 120 agencies in the application/self-certification process. This is overwhelming OCJS. Consequently, I am beginning to see more requests for Peers to help agencies finalize paperwork and documentation. Please note, you will be seeing some of these requests/assignments where the agency is already in the process, but needs help finalizing their submission. Hopefully, these can be fairly quick turnarounds.

Secondly, and as you know, a big part of the Ohio Collaborative is to stress police-community relationships. I send out to each Assessor a community questionnaire to complete on the agency they are assessing. To date I have not received any of these back. Would you please make this a priority as you complete your assessor assignments?

Thanks and as always, call me if questions.

Joel
