

Dear Friends,

In 2019, Capital University introduced the Good Guarantee program. The Good Guarantee offers a fifty percent discount in tuition to first-year college students whose families or guardians have chosen mission-centered careers in non-profit organization or in public-service work. The Good Guarantee is our way of giving back by extending the opportunity of a high-quality education to families whose own generosity blesses the lives of so many. We are proud to report that many students and their families took part in this program and these students are successfully pursuing their education at Capital. We look forward to the great things we know they will achieve!

Over the past several months as our world has faced the challenges associated with COVID-19, our campus community has been mindful of the sacrifices and courage of those who work to provide services to help our communities continue to function and prosper. Please know of our deep appreciation for all that you and your organization offer to contribute to the greater good.

It is in this same spirit that we continue our commitment to the Good Guarantee. And perhaps in this moment, it has particular meaning to us as a way for us to play our part and make a difference. As a non-profit or public service organization, students of your employees qualify for Good Guarantee benefits. We invite you to share this invitation with your staff and if you have families who are interested in discussing this option, I invite them to reach out to me personally. I would be happy to discuss this opportunity with them. To learn more about the Good Guarantee, you can visit our website [here](#).

On behalf of the entire Capital University family, thank you for the work that you provide in service to others.

Sincerely,

Emily Ragland, Director of Admission
