4:30 pm Bellows Ballroom	Session II – General Session “Legally Justified; But Was It Avoidable?” Chief Scott Hughes, CLEE, Hamilton Twp. (Warren) PD <i>Facilitator: Chief Roy Mosley, III, CLEE Brimfield Twp. PD</i>
	<p>The Graham v. Connor case determined that the moment an officer uses force could not be judged “with the 20/20 vision of hindsight.” That said, this legal doctrine does not (and should not) preclude officers, trainers, and supervisors from examining cases with that 20/20 vision. With a goal of avoiding the avoidable, we should look backward from the moment force was used and honestly assess whether the officer, by action or lack of action, contributed to its ultimate need.</p> <p><i>Legally Justified; But was it Avoidable?</i> analyzes dozens of recent use of force videos and focuses on the totality of the interaction. We dissect the behavior of the offender and more importantly, the thoughts and behavioral processes of the officer(s) involved. Specifically, we consider if poor or ill-advised tactics, ineffective communication, a lack of personal control and/or a misunderstanding of acute stress led the officer(s) to escalate the event unintentionally and unconsciously.</p>

Go to sleep at night with the weight of the world thinking about life's imperfections and wake up the next day ready to be inspired, moved, and a better version of ourselves. We are all forged by the fires of life and the adversity it brings. Let's journey together and see that the fire inside us can burn brighter and stronger than any that surrounds us. Session IV – Breakout Sessions

“What You Do Matters: Lessons from the Holocaust” – (must be pre-registered for this session)

- Elizabeth Ortiz, Executive Director, Arizona Prosecuting Attorneys’ Advisory Council
- Lt. David Moore, Phoenix Police Department

Facilitator: Director James Willock, CLEE Kent State University

The Holocaust was an unspeakable horror from World War II (WWII). After a visit to the United States Holocaust Memorial Museum in Washington, D.C. in 2006, law enforcement leaders of Yavapai County recognized that the Holocaust is much more than a chapter from a history book. The Holocaust provides important insight into the consequences when a government shifts the mission of the police from protecting individuals to supporting the abuse of basic human rights.

How Germany changed in less than a decade from a free, democratic, and scientifically advanced society to a totalitarian regime that systematically targeted and murdered millions of its own citizens is a lesson a free society must learn. In the words of Chief Prosecutor Robert Jackson at the Nuremberg War Crimes Trial in 1945, *“Civilization cannot tolerate their being ignored, because it cannot survive their being repeated.”*

Working with the United States Holocaust Memorial Museum and the Jewish Community Foundation of Greater Prescott, Arizona law enforcement leaders offer a powerful curriculum to ensure that the core values of our democracy are upheld. **“What You Do Matters”** examines policing within the legal and political framework of Nazi Germany – a journey that eventually turned those who should protect life and liberty into those who intimidated, humiliated, deported, and eventually murdered millions of innocent people. Using historical images and stories from the Holocaust, trained facilitators engage students in a dialogue about the role of law enforcement in today’s communities and the importance of core values in ensuring the integrity and vibrancy of democracy.

Agency (Gaining/Growing Respect, Engagement, Accountability and Trust) is a matter of persistence and resolve. Especially now, in the age of instant communication, videos, photos and social media, it is imperative that our police agencies pursue GREATness as never before. GREATness will never happen by chance; it is a matter of choice and determination. Officers, supervisors and especially our department leaders must Gain and continually Grow the Respect of those we serve, engaging with our customers and always remaining Accountable for a foundation of lasting Trust.</p> <p>This seminar seeks to instill the critical importance of pursuing GREATness by looking at where we've been, where we are now and what is needed to establish GREATness as a foundational aspect of our agencies.</p>

8:00 am Lower Level: Bellows Ballroom	Session VII: General Session: “Outward Mindset and Policing” Captain Charles Huth, Kansas City (Mo.) Police/Arbinger Institute <i>Facilitator: Chief Scott Hughes, CLEE Hamilton Twp. PD</i> The Outward Mindset offers the gift of awareness, not perfection - it is nonetheless compelling. When leaders become self-aware and begin to hold themselves accountable for the impact of their leadership upon all those affected, something amazing begins to happen. Silos, blindness, blame, and resistance, along with the resulting justifications for hostility, disengagement, and low morale, start to disappear as awareness, collaboration, accountability, innovation, and productive engagement increase. This session will introduce leaders, in policing and public safety, to the core concepts of The Outward Mindset, along with essential tools and frameworks that can be utilized at home and work. Attendees will learn to shift their mindset from a self-focused inward mindset, leading to unintended negative consequences, to an others-inclusive mission-focused outward mindset, leading to the results described. They will also learn about a path to lead their teams and departments to make this mindset shift.
